

2003-47

>>> <DDStirling@aol.com> 11/24/03 04:16PM >>>

I am sending this message to convey my deep concerns over my ability to gain satisfaction for my Asbestos Exposure.

If proposed court rule No. 2003-47 is allowed to pass you will be taking away our rights to gain relief by a jury trial and allow large corporations to avoid their responsibilities. They exposed us and should stand for the ramifications of their acts. A jury trial is the only fair and equitable platform, otherwise why would they be even attempting this underhanded maneuver. Please do not allow Proposed Court rule No. 2003-47!

I am a 79 year old Father, Husband, Brother, and Retiree who worked hard all his life devoted to supporting my family and my company. I had a devotion to my work and a faith in my purpose. However now I find that those companies did not have the same commitment to me.

Please do not allow this attempt by large corporations to avoid their responsibilities to many hard working citizens that have provided the labor for them to be successful.

Sincerely,
Harry Knoy
